

## **870-2 - Entry level Thermal Imager Overview**

The thermal imaging cameras in the Testo 870 series have been designed and developed together with professionals from such fields as HVAC, construction, maintenance and Facility Management. The target we set ourselves was to build a thermal imager that because it is so easy to use allows you to work faster and more efficiently while still providing you with professional thermal images. What we came up with is the Testo 870-2, a thermal imager that ticks all the boxes.

### **Features**

- Image quality: IR resolution 160 x 120 pixels
- SuperResolution technology to 320 x 240
- Hot and cold spot trackers
- 3.1 megapixel camera
